Introduction

The Fund Deposit Information System is a complete, easier and efficient online solution to manage the deposit of funds from clients to brokerage house's account. The Client submits the information and details of their deposit after transferring funds manually or electronically from bank account to MMK trading account.

This platform provides the fastest way to show your money into your MMK trading application or trading account automatically.

How to Submit the information

- First client has deposited the fund as your available platform
- User can login using the following **URL:** <http://funds.munirkhanani.com> to submit our fund deposit information
- On the login page, enter your User ID and password, (which was already provided for Trade link application) and click the submit button to get started

- After successfully logging fill out the complete information with attachment of deposit slip and electronically transfer snap.
